

Coming Together Partnership to Prevent Gun Violence

Restorative Practices Training Project

Your Agency's Role:

Assemble a group of about 15 participants, including youth (ages 12-21) and adult leaders (no more than four), to take the training.

Your agency may propose to put together more than one such group.

Provide us with possible dates your group will be able to participate.

Each group will be expected to complete at least eight hours (and up to twelve hours) of training. Two basic formats are being suggested (one eight-hour session or two four- to six-hour sessions). Other formats will be considered, if necessary.

The training sessions must be completed by Aug. 31. (Note: Proposals for training after Sept. 1 will also be considered.)

Contact Ken Germanson with your proposed dates. (keng@communityadvocates.net) or 414-687-6954.

The Coming Together Partnership's Role:

You will be put in touch with the trainers to arrange the details of your training, the times, dates, places, etc.

CTP will cover the costs of the training, such as rent, food, materials, etc.

Upon completion of the training, the participants will be required to complete a brief evaluation of what they learned during the training session.
