

TIPS FOR MILWAUKEE LANDLORDS DURING COVID-19

1

CHECK-IN WITH TENANTS

Touching base with your tenant to see how they/their families are doing shows you care and can be a proactive step in making you aware of any health changes or hardship.

2

PROVIDE RESOURCES

A Tenant Tip Sheet has been developed for landlords to distribute during this difficult time. Communityadvocates.net also has a COVID-19 repository of health, wellness and financial resources that can be accessed and shared.

3

REACH OUT IF YOU NEED HELP

An array of services for landlords and tenants is available. Tenants, with financial hardships, will be connected to critical resources to maintain rent payments. Temporary Rental or Energy Assistance may be available depending on their situation.
