

Alliance for Wisconsin Youth

Alliance for Wisconsin Youth Southeast Region

Community Advocates Public Policy Institute serves as the Southeast Regional Prevention Center of the Alliance for Wisconsin Youth, through which we provide training and support to substance use prevention coalitions in Milwaukee, Waukesha, Washington, Jefferson, Ozaukee, Kenosha, Racine & Walworth counties.

AWY plays a critical role in developing the public health & behavioral health workforce in diverse communities within our region. To do this, AWY provides support to its member coalitions by providing coaching/mentoring, networking opportunities, coordination of collaborative projects, & trainings and webinars to ensure coalitions are equipped to implement effective prevention in their respective communities.
